THE ELECTION INSPECTORS and the winning local candidates had been summoned to appear at the Commission on Elections, but no one showed up.

Celebrating 10 years of Entrepreneurship: **FLYING V** soars even higher!

On its first decade of highly energized existence, Flying V leads the way to Energy Independence!

- Robust growth from a network of over 130 service stations from as far North as Pagudpud, Ilocos Norte, to as far South as Cotabato City, with more stations to come.
- Fostering product excellence and logistical strength (with 5 supply depots nationwide) to successfully compete in a vital industry.

Pioneering Alternative Fuels and Environmental Consciousness for the Filipino:

- First to introduce and market Biodiesel B1 preblended direct from its stations' pumps, years before the Biofuels Act came into law this January, 2007.
- First to establish Biofuel Centers to serve as home to information and promotion programs of Flying V and its partner advocates.

Salamat, bayan sa inyong lubos at patuloy na pagtangkilik! Bilang pasasalamat, aming nilunsad ang:

- **FLYING V CARES:** A fight against Hunger by allocating a portion of its sales to feed at least 30,000 families a month, to help alleviate the hungry poor (in cooperation with the National Anti-Poverty Commission, Luzon Urban Beltway, and Rotary District 3806).
- **Flying V Institute for Advanced BioFuel Research:** Tapping the country's top experts in industry and the academic, the Institute will undertake studies and the testing of up to 20% higher

blends of BioDiesel and spearhead the movement for energy self-reliance and environmental consciousness (in cooperation with the Department of Energy, Philippine Coconut Authority, Technological University of the Philippines, Filipino Car Foundation, Sonesta Motors Corporation and Professor Koji Yoshida of Nihon University).

- **Corporate Social Responsibility - the Flying V Way:** Flying V through its thrust of alleviating poverty, supports various community based Housing, Livelihood, and Values Formation Projects:
 - To date, over 300 scholars from all over the country have benefitted from the Flying V Scholarship Program.
 - The Flying V subsidized Housing program, open to low income families at no downpayment and low monthly amortization, enabled dozens of families to own a house & lot located at the heart of Rizal.
 - The Flying V Livelihood programs focus on skills training seminars that give the individual the opportunity to develop skills for job opportunities and entrepreneurship.
 - The Flying V Values Formation program is embodied in a free school for children 2 1/2 to 6 years old in Rizal and La Union province, a step up from their humble beginnings.

Walang urungan ito.

Formed in 1997 during the deregulation of the oil industry, the Independent Philippine Petroleum Companies Association (IPPCA) is composed mainly of oil players other than the three oil industry giants. But given the trend in the global market for alternative fuels, and with full implementation

of the BIOFUELS Act of 2006, the IPPCA members' 25% share of the market will undoubtedly increase, fuelled by awareness and acceptance of the benefits of alternative fuels such as Biodiesel and Ethanol E-10. IPPCA has actively upheld concerns of its members on vital energy issues, notably:

- Pioneered the campaign for consumption and production of alternative fuels such as Biodiesel and Ethanol E-10;

- Supported the early execution of the Clean Air Act in eliminating the lead content in gasoline;

- Spearheaded the movement towards legislation on the use of Biofuels, resulting in the enactment of the Biofuels Act of 2006.

IPPCA proudly supports the Biofuels Act and the information and educational program of the Department of Energy and participating agencies.

By Carlo Picoqui
 Manila (PNA)

MANILA CITY—THE SUPREME COURT HAS dismissed a petition questioning the manner in which land reform is being implemented in sugarcane lands for lack of merit.

The petitioners include the Confederation of Sugar Producers Association Inc., National Federation of Sugarcane Producers, United Sugarcane Producers Federation of the Philippines Inc., Pampanga Federation of Sugarcane Farmers Inc., First Farmers Holding Corp., National Congress of Farmers in the Sugar Industry of the Philippines and the League of Municipalities of the Philippines (Nagkakaisang Municipalidad ng Pilipinas).

Bush pushes Kosovo independence

TIRANA—US PRESIDENT GEORGE W. BUSH SUNDAY pushed for the speedy independence of Kosovo from Serbia despite Russia's vehement opposition as he staged a landmark visit to Albania.

Bush, the first US leader to visit Albania, said the purpose of his trip was to "strengthen the ties between the two nations" and to "strengthen the ties between the two nations."

"We need to get moving and forward to self-independence," Bush said. "We need to get moving and forward to self-independence."

Sarkozy's party heads for big legislative win

PARIS—PRESIDENT NICOLAS SARKOZY'S cent-right party was on course to win an overwhelming parliamentary majority after the first round of French legislative elections on Sunday, securing for power to enact changes that he says are needed to rescue France's economy and social welfare.

Sarkozy's party, the Union for a Republic Movement, won 38.54 percent of the vote, according to a tally by the Interior Ministry. That made him the party and its ally, the right-wing UDF, the first to win an absolute majority in the second round on June 17, pollsters said.

The main opposition, the Socialist party, received 28.72 percent, meaning that it could lose more than half of its 149 seats, pollsters projected. The result confirmed the divorce on the left since its presidential candidate, Jacques Chirac, lost to Sarkozy last month.

Sarkozy said he plans to replace his cabinet with a new one and to replace his cabinet with a new one.

Afghan leader unharmed in Taliban rocket attack

KABUL—CHAMAN GUNBARILLAS made a failed attempt to kill Afghan President Hamid Karzai with a rocket attack on Sunday, severely wounding a building where he was giving a speech, Taliban and the government said.

Bullets hit several hundred meters from the government building, wounding Karzai and some of the audience before he fled, but Karzai said there is no harm to his health or to his government.

"There is no harm to my health or to my government," Karzai said. "There is no harm to my health or to my government."

"There is no harm to my health or to my government," Karzai said. "There is no harm to my health or to my government."

Several helicopters operated by the government, part of Karzai's security arrangement, were hovering above the site of the attack, according to the media.

Taliban spokesman, Qari Muhammad Yusuf, said the Taliban knew that Karzai would be attending the meeting in the capital of Kabul, but they did not know he would be there.

Karzai has been leading Afghanistan since the Taliban's removal from power by US-led forces in 2001. He has been called "the son of the father" by some.

The government officials said the president was in Kabul and the president was in Kabul.

SM unit plans to raise P5B in new funds

By Elizabeth Sanchez-Ayco

SM DEVELOPMENT CORP. (SDC), the common resource holder of well-known Home Plus, may raise P5 billion in new funds from either debt or additional share sales this year to fund new projects and expand its reach.

"It's part of our plan to continue expanding the unit, but it depends on how we have enough liquid assets," SDC president Roger Calalang said. "We will study the market and see if it's feasible."

In the second half, Calalang said that SDC may proceed with its Home Plus expansion, a residential and commercial project being undertaken in several areas, including the new Home Plus in the City of Manila.

Home Plus owners will have from 15,000 to 20,000 units, each of which will have a size of 30, 40, and 50 square meters. Home Plus owners are selling a total of 2,420 units and is expected to be completed in three years. Total estimated cost to complete the Home Plus is P3.4 billion.

The company has not started selling P5 billion in three major residential projects over the next three years.

That is the P5.4-billion Home Plus.

Program helps ease effects of cerebral palsy

MANIPULATIONS ABOUT CEREBRAL palsy that affect more than 10 million worldwide are many.

Often characterized by difficulty with fine motor skills such as buttoning buttons and walking, as well as involuntary movements like uncontrollable wringing of the hands or drooping, cerebral palsy results from injuries to the developing brain at any time during pregnancy, labor and the infant's life.

At its most severe, cerebral palsy may result in virtually no movement, profoundly affecting movement and speech.

Infused knowledge on the nature of this brain, the latest innovation

in cerebral palsy management came from the many neurosurgeons when her daughter Kaye was diagnosed with the condition.

But not many doctors were present, telling her daughter could not expect excellent things.

But Kaye did not give up. With the help of international therapy, she thrived. Her daughter can play the violin and the piano and even perform physically demanding activities like rock-climbing.

Kaye's daughter was not the only neurosurgeon. Therapist at 10-month study conducted using 20

children, it was found that 100 per cent showed the Therapist program with positive improvements in range of motion and strength.

Some children were found to crawl, stand independently and even walk wearing devices or by themselves.

The Therapist program has been used, used only by the Therapist program has been used not less than 100 per cent of the children with cerebral palsy.

At present, there is no device for cerebral palsy that can be used and information regarding management helps break stereotypes surrounding the condition.

Sometimes it is nearly as good as, at other times it is as bad as, the dreamer's own thoughts. It is as if the dreamer is being stalked by a spirit lover, at other times it is as if the dreamer is being stalked by a spirit lover.

In the case of a young child, he just wants to tell you and the members of your family that he is happy

Lessons from 'the one who wins the heart'

By Frances G. Nolasco

"WHERE ARE YOU FROM?" she asks gently.

"From the Philippines, Dad," I reply, a little cloud of blush. I've just walked a hundred meters to my girlfriend in bed. I am casual and a bit of a loner.

"Philippines," she repeats with a smile. The name heard my mother's name spoken with such affection.

The dad I have no much thought. I was among some 12,000 people from all over the world that she welcomed last night. She required no introduction or second, as an obvious way for her to transition into about 25 languages and 15 local dialects.

It is the 15th day of the anniversary of that moment when, the Perfect Human World Against Inequality, in Indonesia, India, for hours it "mashed" the 17 million, and will feel there's much to be proud.

Teaching and learning

The dad has something to teach. He has been something to teach. For example, he may teach me to give service. But just as I should not take service. If someone gives me service, then, you take it. Service is all to give, it is a gift. When he says, "I am not taking the negative thoughts and feelings that people have in, they are not taking anything from me."

He is one of the three main members and an administrator of the university. His name is Mr. Dick Gallego, which means "The one who wins the heart." He is a 40-year-old man of support for students in more popularly known to 900,000 students around the world (200 of them in the Philippines) through Gallego, which means "You guide."

Dick Gallego was one of the original words in a small book titled "The one who wins the heart" in 1977. In his own words, he was called "The one who wins the heart." The school was founded on teaching in spirit and principles, and had the same group of girls in 1977. They are now 40-year-old women.
